

PATRICIAN

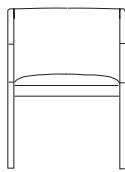

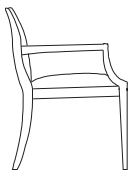

SPEC SHEET

PEYTON GUEST 50101-1, 50101-2, 50101-3

FEATURES AND SPECIFICATIONS

- A new classic is defined in this clean, lightly scaled collection. The dramatic tapering of the arms and seat create a sculptured, flowing profile, with three distinct designs.
- To ensure long lasting durability, the frame is reinforced with mortise and tenon as well as double dowel joinery. For added strength, corner blocking makes Peyton a sturdy guest seating solution.
- Solid PEFC beech exposed wood frame available in a variety of finishes.
- Standard with PAT-Shield, with Silverlon technology, a unique antimicrobial wood finish that is highly resistant to abrasion and chemical cleaning solutions.

PLEASE NOTE: Amount of upholstery requirements needed may vary depending upon selection. Please contact Customer Service at 800-334-9309 for questions regarding yardage/square feet.
